EDUCATION

B.Tech in CSE: Galgotias College of Engineering and Technology, Greater Noida	2022-2026
Bachelor of Technology- Computer Science(Data Science); GPA: 7.71	
XII CBSE: Surendranath Centenary School, Ranchi ; 87.16%	2019-2021
X CBSE: New Gyan Bharti International School, Nawada; 89.16%	2019

SKILLS

Technical Skills:	HTML, CSS, Javascript, Python, Java Basics
Frameworks:	React.Js, Node.js, Express.js, MongoDB, Machine Learning
Tools:	Git, GitHub, VS Code
Soft Skills	Team Work, Team Observer

EXPERIENCE

IBM SkillsBuild Internship Program (Remote)	Intern
Company: CSRBBOX in collaboration with IBM SkillsBuild	<i>10th June 2024 - 6 July 2024</i>
- Completed a 4 week structured internship focused on Artificial Intelligence and Machine Learning concepts. - Gained practical exposure to data preprocessing, Supervised and unsupervised learning using python. - Attended expert-led sessions on carrier skills, problem solving and technology trends in AI/ML.	

PROJECTS

Expense Tracker. This is a React-based Expense Tracker application that allows users to record daily transactions, calculate total balance, and keep track of income vs expenses. The app demonstrates key React concepts such as components, props, state, Context API, hooks (useState, useContext, useReducer), and conditional rendering.

UPI Fraud Detection System using ANN. Developed a machine learning-based system to detect fraudulent UPI transactions by analyzing historical transaction data and user behavior patterns. The project involved data preprocessing, feature engineering, and training supervised learning models to classify transactions as genuine or fraudulent. This project enhanced skills in Python, machine learning, data analysis, and full-stack implementation.

Hand Gesture-Based Game Automation . Developed a real-time hand gesture-based game control system using Python, OpenCV, and Mediapipe, enabling real-time simulation of keyboard inputs for accelerator and brake keys. Implemented visual feedback and optimized performance for smooth gameplay .

EXTRA-CURRICULAR ACTIVITY

Engineering and Entrepreneurship Orientation Programme	Trainee
Issuing Organization: National Small Industries Corporation Ltd.(NSIC)	<i>June 2023</i>
- successfully completed the Engineering and Entrepreneurship Orientation Programme(6 hours) at the National Small Industries Ltd.(NSIC), a Government of India Enterprise. - Acquired foundational knowledge in Engineering principles and Entrepreneurship through a structured program offered by a premier Government of India Organization(NSIC).
